

# TAPESTRY

## "Harp & Acoustic Guitar"

### **Workshops by Denise Grupp-Verbon**

#### **Practice Possibilities**

*Practice, practice, practice. How do you begin? What can you do to make more efficient use of your practice time? Discover new possibilities while sharing success stories with others.*

#### **The Lone Arranger**

*You want to create an arrangement of a melody but don't know where to start? Don't know what those funny letters, and numbers are above the staff? Join us for introductory tips on creating your own arrangements and how to read a lead sheet.*

#### **Music Theory I for Beginners**

*Tips and tricks for reading music. Includes major and minor key signatures, major and minor scales and intervals. Beginners as well as those needing to refresh their skills will benefit from this workshop.*

#### **Music Theory II (continuation of above)**

*A continuation of Music Theory I, we will discuss triads, seventh chords, reading chord symbols and analysis. You will 'practically apply' what you have learned.*

#### **Promote Yourself**

*Personalization, Promotion, Professionalism, Practice and Customer Service...  
Printing business cards and putting in a phone line with an answering machine is not enough!  
This round table style workshop will include tips not often considered by free-lancers and other professionals. Everyone will go home with new perspectives and ideas.*

#### **The Reluctant Student**

*Will Lessons Help? What Should you do next? Explore practice techniques and approaches to new and old arrangements.*

#### **Your Musical Cupboard : Special "FX" on your Harp**

*Bring your harp and learn just how to play things like harmonics and a variety of glissandos. We will also discover "P.D.L.T.," how to make your harp sound like a xylophone and falling hail. This workshop will introduce a variety of harp 'special effects', their written symbols and how to play them.*

#### **Zen Harp**

*Explore your path. An introduction to your Dojo (learning place), a common sense approach.*
